DETAILED OFFICE COMUNICATION

The reply filed on 06 April 2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

The instant set of claims contains additional subject matter added to the text of the claims relative to the immediate prior version of the claims and are specified below. Additionally, the claims that contain the additional subject matter were not properly identified as "Currently Amended".

CFR § 1.121(c) states:

Amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions) as indicated in this subsection, except when the claim is being canceled. Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: (Original), (Currently amended), (Canceled), (Withdrawn), (Previously presented), (New), and (Not entered).

CFR §1.121(c)(2) states:

All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of "currently amended," or "withdrawn" if also being amended, shall include markings.

Instant claim 1 recites the limitations of "scaffold" in line 1 and "table" in line 6 of the instant claim. The previous version of the claim 1 filed on 28 September 2004 had amended the claim to delete the above limitations.

Instant claim 2 recites "further comprising synthesizing a plurality of said secondary sequences." in lines 1 and 2 of the instant claim. The previous version of the claim 2 filed on 28 September 2004 had amended the claim to delete the above limitation.

Instant claim 3 recites the limitations "synthesizing" and "done by" in line 1 of the instant claim. The previous version of the claim 3 filed on 28 September 2004 had amended the claim to delete the above limitations.

Art Unit: 1631

Instant claim 4 recites the limitation of "pooled oligonucleotides" in line 1 of the instant claim. The previous version of the claim 4 filed on 28 September 2004 had amended the claim to delete the above limitation.

Instant claim 5 recites the limitation of "pooled oligonucleotides" in line 1 and "added in line 2 of the instant claim. The previous version of the claim 5 filed on 28 September 2004 had amended the claim to delete the above limitation

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric S. DeJong whose telephone number is (571) 272-6099. The examiner can normally be reached on 8:30AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ardin Marschel, Ph.D. can be reached on (571) 272-0718. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Any inquiry of a general nature or relating to the status of this application should be directed to Legal Instrument Examiner, Tina Plunkett, whose telephone number is (571) 272-0549.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It
